## 25 YEARS

### WARRANTY

ON OUR EXHAUST PIPE SYSTEM ELEMENTS  
(MADE OF STAINLESS STEEL)

Pre-condition for the guaranteeing is an appropriate and professional installation under consideration of the cross-sectional calculation according to EN 13384-1, the complete installation of the single parts from the boiler and gas flue outlet to the end cap in our quality of materials and the absolute avoidance of the impact of chlorinated hydrocarbon.

The stainless steel pipe is to be cleaned with a plastic or stainless steel broom. It has to be ruled out that the stainless steel mingles with ferritic or low-grade metal.
